Market Commentary

Key benchmark indices managed small gains in a truncated trading week. Fall in crude oil prices supported domestic bourses. Foreign portfolio investors stepped up buying of Indian stocks. The Sensex managed to climb above 28,000 mark in intraday trade for the first time in its life on Wednesday, 5 November 2014. However, the Sensex failed to retain that level. The Sensex and the 50-unit CNX Nifty, both, scaled record high on intraday basis as well as on closing basis on 5 November 2014. The Sensex declined in two out of three trading sessions in the week ended Friday, 7 November 2014. For the Next week nifty likely to trade in the range between 8450 - 8550 in the upper side and 8250 - 8150 in the lower side.
