# Market Commentary

Indian equity markets tumbled during the week ended Friday, 24 April 2015, on selling by foreign portfolio investors (FPIs). The issue of payment of minimum alternate tax (MAT) by FPIs continued to weigh on investor sentiment even as the finance ministry clarified that MAT would not be applicable to the entities based in countries having double taxation avoidance pacts with India. Forecast of below normal rainfall this year from India's weather office also dampened market mood. The barometer index, the S&P BSE Sensex, fell below the psychological 28,000 mark. The Sensex declined in four out of five trading sessions in the week ended Friday, 24 April 2015. For the next week Nifty likley to go trade in the range between in the upper side and in the lower side.
