Market Commentary

Market edged higher last week after the Union Cabinet approved a long-awaited pay hike for its employees. The sentiment was also boosted by a global relief rally as the immediate impact of Brexit began to fade. With the Futures & Options (F&O) expiry on Thursday, 30 June 2016, the market witnessed higher volatility. Gains in global markets also aided the upmove on the domestic bourses. World stocks rose as worries subsided about the fallout from the UK's decision to leave the European Union known as Brexit. The UK voted to leave the European Union (EU) in a referendum on 23 June 2016. The unexpected referendum result sent shock waves through the UK parliament, leaving the two biggest political parties in turmoil. Back home, the barometer index, the S&P BSE Sensex, rose 747.20 points or 2.83% to settle at 27,144.91. The Nifty 50 index rose 239.75 points or 2.96% to settle at 8,328.35. For the next week Nifty likely to trade in the range between 8400 – 8450 in the upper side and 8250 – 8200 in the lower side.
